Contrary to general belief he does not employ the Australian stroke but what he calls the "American" stroke and declares that the secret of his speed is in the perfect synchronization of his arm and leg movement. He breathes with every stroke.

FINANCIAL AND COMMERCIA!

MARKET WAS ACTIVE New York, April 3.—The volume of operations on the stock exchange today established a high record for the year, approximately 1,300,000 shares changing hands. Many new maximums for the period were made by favorites of the in-

dustrial and miscellaneous groups.

Bullish sentiment, increasing over the week-end, was evidenced by heavy orders placed by commission houses. Western in-terests were said to be especially active in the demand for speculative steels and

Advices from the chief centers of trade and industry were encouraging, indicating an increase of railway tonnage gains in various lines of business and a pronounced extension of investment purchases. Coalers were not affected by the miners'

strike, the few changes in that division being mainly upward.

Motors, independent steels, oils and equipments, were the outstanding features at net gains of 1.1-2 to 4.1-4 points.

Studebaker led the entire list and United States Steel assured much of the old time. States Steel asserted much of its old-time prominence. Mexican and California is-aues were foremost of the olis. Unclassified stocks, such as California Packing, Wilson and Company, and Davison Chem-ical, were substantially higher.

Excepting Canadian Pacific, Pennsylvala and Delaware and Hudson, the inquiry for ralls centered in the preferred stocks of St. Paul, Chicago and Alton and Toledo, St. Louis and Western at ex-treme gains of 1 to 2 points. Coppers and the general metal list alone were slug-

The money market favored the further rise of stocks, call loans easing from 4 3-4 to 4 1-2 per cent in the final hour. Time funds again ranged from 4 1-2 to 4 2-4 per cent, but offerings of long-time accommodations were lighter than usual.

A moderate reaction in the German mark was the one exception to the stronger tone of foreign exchanges. Sterling rose almost two cents. French, Italian and Belgian bills were 3 to 12 points higher and Dutch and Scandinavian quotations improved 5 to 15 points, the Norwegian
